If love is blind, why is lingerie so popular?

QUOTE OF THE DAY

What lies behind us and what lies before us are tiny matters compared to what lies within us.

YOU MIGHT BE A REDNECK IF:

If you think “neighborhood watch” is what your mother-in-law does on the porch all day.

LOCAL NEWS: The Ford Model T (colloquially known as the Tin Lizzie, Flivver, T-Model Ford, or T) is an automobile that was produced by Henry Ford's Ford Motor Company from 1908 through 1927. It is generally regarded as the first affordable automobile, the car that opened travel to the common middle-class American. The first production Model T was produced on August 12, 1908 and left the factory on September 27, 1908, at the Piquette Plant in Detroit, Michigan. On May 26, 1927, Henry Ford watched the 15 millionth Model T Ford roll off the assembly.

The Tennessee T's Model T Ford Club recently visited downtown Delina. They enjoyed lunch while we enjoyed their Model T's. The Tennessee T's were formed around 1998 and travel around the south (in their Model T's) taking in the sights and providing their own scenery along the way. According to Larry Williams, these cars will travel over a hundred miles a day (usually at speeds of 25-40 mph) to attend events all around the south. It was sure nice to have them visit Delina and their Model T's were excellent...

Thanks for stopping by...and come again...

CLASSIFIED ADS

THINK ABOUT IT: Seven days of the week, seven seas, seven primary colors, seven wonders of the world, seven notes of the musical scale, the seven ages of man, seven deadly sins, seven levels of hell, seven categories for absolute judgment, the seven objects in the span of attention. Think 7-Up, Seven Dwarfs, The Magnificent Seven, seven-a-side...

There are two theories to arguing with women. Neither works.

MISSING AXEL INVESTIGATED

Authorities were called in including the FBI, DEA, SOCA, NCIS, OSI, TBI, State Police, Local Law Enforcement and a unique CSI unit from Atlanta specializing in stolen bathroom items to investigate the disappearance of a toilet roll "axle" missing and presumed stolen.

Toilet paper is a soft paper product (tissue paper) used to maintain personal hygiene after human defecation or urination. Different names, euphemisms and slang terms are used for toilet paper in countries around the world, including "bum wad", "loo roll/paper," "bog roll," "toilet roll," "dunny roll/paper," "bathroom/toilet tissue," "4 inch" "TP", "arsewipe", or just "tissue." Most toilet paper, however, whether virgin or recycled, is wrapped around cardboard cylinders. This cylinder is placed on an "axle" for use in the bathroom. It was this item that went missing from the necessary room at a local business.

Law enforcement issued an all points bulletin and asked if anyone sees an "axle" out of place or lying around to please call 1-800-DELINA-CRIMESTOPERS. A reward is being considered.

MIT RESEARCHERS SOLVE THE KETCHUP PROBLEM...

No more violent shaking. No more tapping the "57" logo. And certainly no more ketchup left to waste at the bottom of the bottle -- all thanks to Ph.D. candidate Dave Smith and his team of MIT researchers.

Smith's team, consisting of mechanical engineers and nano-technologists, over the past several months has created "LiquiGlide," a non-toxic coating so slippery that when you tilt the bottle, the ketchup just flows. Every last drop.

"It's funny: Everyone is always like, 'Why bottles? What's the big deal?' But then you tell them the market for bottles -- just the sauces alone is a \$17 billion market," Smith told Fast Company.

"And if all those bottles had our coating, we estimate that we could save about 1 million tons of food from being thrown out every year."

GOD'S AMAZING ACCURACY...

God's accuracy may be observed in the hatching of eggs. For example, the eggs of the potato bug hatch in 7 days; Those of the canary in 14 days; Those of the barnyard hen in 21 days. The eggs of ducks and geese hatch in 28 days; Those of the mallard in 35 days.. The eggs of the parrot and the ostrich hatch in 42 days. (Notice, they are all divisible by Seven). God's wisdom is seen in the making of an elephant. The four legs of this great beast all bend forward in the same direction. No other Quadruped is so made. God planned that this animal would have a huge body, too large to live on two legs. For this reason He gave it four fulcrums so that it can rise from the ground easily. The horse rises from the ground on its two front legs first. A cow rises from the ground with its two hind legs first. How wise the Lord is in all His works of creation!

God's wisdom is revealed in His arrangement of sections and segments as well as in the number of grains. Each watermelon has an even number of strips on the rind Each orange has an even number of segments. Each ear of corn has an even number of rows. Each stalk of wheat has an even number of grains Every bunch of bananas has on its lowest row an even number of bananas, and each row decreases by one, so that one row has an even number and the next row an odd number. The waves of the sea roll In on shore twenty-six to the minute in all kinds of weather All grains are found in even numbers on the stalks The Lord specified Thirtyfold, sixtyfold, and a hundredfold - all even numbers.

God has caused the flowers to blossom at certain specified times during the day, so that Linneus, the great botanist, once said that if he had a conservatory containing the right kind of soil,moisture and temperature,he could tell the time of day or night by the flowers that were open and those that were closed. Thus the Lord in His wonderful grace can arrange the life that is entrusted to His care in such a way that it will carry out His purposes and plans, and will be fragrant with His presence. Only the God-planned life is successful. Only the life given over to the care of the Lord is safe. *Author unknown

DELINA WORD SEARCH PUZZLE

Clues - Food

Across:

- 4 used for baking
- 5 protein in a shell
- 6 poultry
- 7 the other white meat
- 8 great with sauce
- 10 american or swiss
